### 2016 Snowboard Program

Outdoor Outreach just wrapped up our final snowboarding trip of the season with a week long spring break trip to June Mountain in Inyo National Forest. Each year, snowboarding is one of our participants' favorite trips, because it gives them the chance to see something new – snow! But, experiencing fresh powder isn't the only thing that makes snowboarding a much awaited trip – the amazing feeling of accomplishing your first successful run down the mountain cannot be matched.

This winter, Outdoor Outreach ran 10 full-day snowboarding trips in addition to the multi-day snowboard spring break trip and an overnight outing with the [Blue Heart Foundation](#). Students at the Blue Heart Foundation loved their weekend adventure, and one participant – Jason – stood out as a snowboarding natural!

Check out our new [snowboarding video](#) highlighting the impact that a positive day out on the mountain can have on the youth we serve! It was created by one our Leadership graduates, Vincent!

### Adventure Club Spring Break Trips

Students from Lincoln and Crawford high schools had the opportunity to interact on a multi-day snowboard trip in Mammoth. It consisted of two full days of perfect snowboarding weather, sleeping overnight in cabins, karaoke, dance parties, and games. One of the highlights of the trip was the "Fear Factor Food Challenge," which allowed students to try unique food combinations. The trip was full of laughs and fun, making it a memorable experience for two schools that rarely get the opportunity to bond with one another in the outdoors.

"I love the overnight trips the most because I have been able to create new friendships and bond with one another. I enjoyed spending the weekend together and doing things we love with people we love."

- Nayeli Meta, Lincoln High School
